Anchor ProLink™

ProLink is a *digital wireless intercom system* that is easy to configure and *easy to operate*. The system allows *duplex communication* by four users with a master belt pack and three remote belt packs. The transmitter and receiver operate utilizing in the *FCC license free 902-928 MHz range* for the U.S. *without the need for a base station*. The *ergonomically designed belt packs* have a sturdy *XLR headset jack, two heavy duty antennas, headset volume control, microphone gain control, A/B channel selection* and *PTT or Always On mode*. The *Out of Range LED* indicator tells each user when to move closer to the master belt pack. A gang charger is available to *charge up to four belt packs* on one device. Anchor has simplified the purchasing process by creating a four-person package at competitive pricing. Use Anchor ProLink back stage at aschool play, in a news studio, on the football field, and more!
